Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 November 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claims 1-19 have been cancelled. Claims 20-23 have been newly added.

Applicant's arguments filed 11/8/06 have been fully considered but they are not persuasive.

Election/Restrictions

Applicant is reminded that they elected compositions of anti-TNF antibodies and that not all TNF antagonists are under consideration. See election in the reply filed on May 31, 2006 as well as the prior Office action. The new claims have been considered with respect to anti-TNF antibodies. Other TNF antagonists within the scope of the claims are withdrawn as being directed to a non-elected invention.

This application contains claims that continue to embrace an invention nonelected with traverse in the reply filed May 31, 2006. A complete reply to the final rejection must include amendment of the claims to reflect the elected invention or other appropriate action (37 CFR 1.144). See MPEP § 821.01.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 20-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant

Art Unit: 1647

art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

Claims 20-23 have been newly presented. Basis is stated to be on page 12 of the specification. This is not agreed with. The recitation of “pharmaceutical” in the preamble is considered to embrace all conceivable pharmaceutical uses including treatment, prevention, and cure of all diseases. Page 12 clearly discloses compositions of anti-TNF antibodies in combination with FSH, hCG, or LH only in the context of treating infertility. The claims are not so limited and this broader context is not disclosed by the originally filed specification. The application does not disclose any other medical conditions that the claimed pharmaceutical compositions would be appropriate for treating. These other pharmaceutical applications are not enabled in view of this lack of adequate disclosure.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the

Art Unit: 1647

reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 20 and 21 rejected under 35 U.S.C. 102(e) as being anticipated by Ekins (U.S. Patent No. 5,432,099).

Ekins discloses a microliter plate where hCG and anti-TNF antibodies are present in buffer solution. See at least Example 2. Note that the claims require only an anti-TNF antibody, a pharmaceutically acceptable carrier, and hCG. The specification does not provide a particular definition for a “pharmaceutical composition” and the claims do not have any additional limitations with respect to structure or function. No particular amounts are required. The use of “comprising” in the claims permits inclusion of other components.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
